

The BACKPACK is a portable vibrator powered by a petrol engine mounted on an ergonomic backpack.

BACK-PACK

PETROL-POWERED PORTABLE VIBRATOR

+ Cordless

The BACKPACK is powered by a petrol engine; therefore, it does not require an electrical connection, increasing site safety.

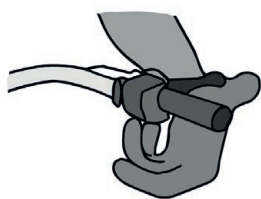

+ Lightness

Users enjoy great comfort thanks to the lightweight of the driving unit and the ergonomic support.

+ Mobility

It is ideal for works where there is no electricity supply, allowing great mobility for the user.

+ Handling

Throttle controller and stop button are integrated into the handle, which facilitates handling.
